39 questionnaires were returned

20 said they would Not be interested in a JVS breakfast

19 said YES they would be interested

The questionnaire was sent home in backpacks to all students. There was also a Skylert sent out to tell all parents there was a questionnaire. It was also placed on the JVS Website.

Sebastian Varas, Director of Nutrition Services, said the program could start next year if parents would support it.

A full breakfast would only be given to those that are on Free or Reduced lunches.

Ideas and discussion...

**Partnering with a grocery store to cover some of the costs

**How would the chopped/pureed meals be prepared?

**Who would do the pureeing/chopping?

**Josh Peel was asked how long would it take for his students to eat the breakfast...he said about 20 minutes

**The time taken to eat the breakfast would be taken off morning groups?

It was decided to try and see how it would work.
